

How to get system installed?

System can be installed by following ways:

Domestic Systems

1. **Through State Nodal Agency-** Contact respective state nodal agency in your state (list with phone no. given on MNRE website) who will visit the site, provide information on cost, size & other details of system required and get it installed at net of government subsidy through some manufacturers.
2. **Through Accredited Channel Partners** (List available at MNRE website)- Contact any of them and get the system directly installed from him at net of subsidy.

Institutional Systems

1. **Through State Nodal Agency-** In same fashion as above by inviting tenders and placing order to selected manufacturer
2. **Through DGS&D rates-** Details available on DGS&D website
3. **Through Accredited Channel Partners-** In same fashion as above

Note: Kindly ensure that the supplier gives 5 years performance guarantee for the system installed. Also ensure that the system is installed as per technical requirements given on website which can be checked by any customer.
